# Update on California's Pandemic Roadmap

# REMINDER

**California's decisions to modify the Stay-at-Home order are based on science, data and public health.**

# What does Stage 2 mean?

This is NOT a “return to normal.”

COVID-19 is still spreading.

California is gradually reopening only where we can reduce risk.

# Starting to Open Friday, May 8th

**RETAILERS** should increase pick up and delivery and encourage physical distancing during pickup and install hands-free devices

**MANUFACTURERS** should close breakrooms, create outdoor break areas with physically distanced seating

**WAREHOUSES** should carry sanitation materials during deliveries and use personal protective equipment for each stop

## **Gradual Move to Stage 2**

**As we continue into Stage 2, we will gradually re-open more industries**

# Gradual Move to Stage 2

## Opening later

- Offices (can telework)
- Seated dining at restaurants
- Shopping malls
- Outdoor museums

# Industry Guidance

## ALL industries must do the following

- ✓ Perform a detailed **risk assessment**
- ✓ **Train employees**
  - ✓ on limiting spread
  - ✓ how to screen for symptoms
  - ✓ to stay home if sick
- ✓ **Implement**
  - ✓ a site-specific protection plan
  - ✓ cleaning and disinfecting protocols
  - ✓ physical distancing guidelines

## Regional Variance

**Counties can move further into Stage 2 when they attest they meet California Public Health criteria.**

# Regional Variance Criteria

## Epidemiologic stability

- ✓ No more than 1 case per 10,000 people in the last 14 days
- ✓ No COVID-19 death in the past 14 days

## Protection of Stage 1 essential workers

- ✓ Ability to support employees when sick or exposed
- ✓ Availability of disinfectant supplies and protective gear

## Testing capacity

- ✓ Minimum daily testing of 1.5 per 1,000 residents

## Containment capacity

- ✓ At least 15 contact tracers per 100,000 residents
- ✓ Ability to temporarily house at least 15% of county residents experiencing homelessness

# Regional Variance Criteria

## Hospital capacity

- ✓ County or regional capacity to accommodate a minimum surge of 35%
- ✓ Hospital facilities must have a robust plan to protect hospital workforce

## Vulnerable populations

- ✓ Skilled nursing facilities must have more than 14 day supply of PPE on hand for staff with ongoing procurement from non-state supply chains

## Triggers for adjusting modifications

- ✓ Metrics that serve as triggers for either slowing the pace through stage 2 or tightening modifications

**CALIFORNIA**

**ALL**

**Your Actions  
Save Lives**
